

The
DME Seminar
Introduction to Water Desalination
Technology – Markets – Environment

takes place

13 June 2019

at
 FORUM DE PALESTRAS EM ALAGOAS,
 Brasil

DME Seminar

Again in 2019 DME repeats its seminar

**Introduction to Water Desalination
 Technology - Markets - Environment**

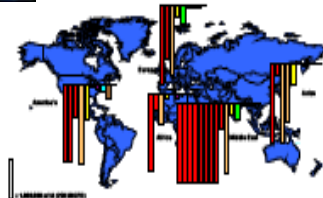

This Seminar addresses mainly representatives of politics, business and science, who want to acquire elementary technical and economical information about this important and rapidly growing branch.

In the framework of selected speeches internationally recognised experts will present an overview on the most relevant desalination technologies and their application. Furthermore they will present markets, potentials and trends in research and development.

Technology

Cost & Markets

Environment

Program

From 8:30

Registration

09:00 – 09:15 (15 Min.)	Greeting
09:15 – 10:45 (60 Min.)	Markets
10:15 – 11:00 (45 Min.)	Desalination technologies in brief
11:00 – 11:15 (15 Min.) Coffee break	
11:15 – 12:45 (90 Min.)	Phase stable desalination -Membrane technology (UF, NF, RO) -Ion exchange
12:45 – 13:45 (60 Min.) Lunch	
13:45 – 15:15 (90 Min.)	Phase changing desalination MED – MEH - MD
15:15 – 16:00 (45 Min.)	Desalination systems in practice
16:00 – 16:15 (15 Min.) Coffee break	
16:15 – 17:00 (45 Min.)	Cost Aspects
17:00 – 17:45 (45 Min.)	Resources and Environmental Aspects
